

# Statement

## Statement with respect to Riskplaza.

Bunge Loders Croklaan B.V. and Bunge Loders Croklaan Oils B.V. (hereinafter "Bunge Loders Croklaan") believe it is important to share our confidence in delivering safe products for the food industry with our customers. We ensure this by a controlled supply chain of our raw materials and an extensive contaminant monitoring program by analyzing incoming raw materials which are used to make our final products. Based on the incoming controls of our raw materials, the settings of our refining process will guarantee that our final products will comply with relevant EU food legislations. Based on our annual contaminant monitoring program the raw materials and the final products are analyzed by an accredited third party laboratory. For Riskplaza the relevant certificates of the following products will be compiled once a year:

- Crude Palm Oil SG
- Crude Palm Kernel Oil SG
- Crude Coconut Oil
- Crude Sheabutter
- Fully refined Palm Oil SG
- Fully refined Palm Stearin SG
- Fully refined Palm Olein
- Fully refined Palm Kernel Oil SG
- Fully refined Coconut Oil
- Fully refined Sheabutter

Attached you will find the relevant certificates.

We hope to have you informed sufficiently. If you have any questions concerning our contaminant monitoring program please do not hesitate to contact us.

Signed by:

A.C. van Diepen

Quality and Food Safety Manager

Bunge Loders Croklaan B.V. / Bunge Loders Croklaan Oils B.V.
