

Soy Protein Concentrates

PurePro[®] conventional textured & powdered portfolio

PurePro conventional soy protein concentrates provide a complete source of protein across plant-based meat, processed meat, pet food, animal feed, and more.

Soy

Local Origins

Enhance transparency and traceability for your business and brands:

- Made with US soybeans
- Soybeans sourced from farmers we know
- Produced in Bellevue, OH right in the soy heartland

Sensory Benefits

Deliver exceptional taste, texture, and appearance in many applications:

- Consistent clean taste
- Assorted textured shapes and sizes
- Range of fine and coarse powders

Value Growth

Confidently grow your brand with optimized formulation costs:

- Scalable supply
- Centralized production with multiple warehouse locations
- Efficient and flexible supply chain

Soy 70N-AC50 Plus					●	

*Non-GMO available upon request †includes swine, calf milk replacement and aqua

PurePro soy protein concentrates are great for delivering complete protein plus other application benefits.

Plant-Based Meat

- Provides texture and meaty bite
- Enhances juiciness
- Optimize chewiness

Processed Meat

- Maximizes cook processing yields
- Lowers formulation costs
- Delivers excellent chewiness, bite, and texture

Pet Food

- Highly digestible protein source
- Enhances chewiness in treats
- Drives production efficiencies with easy mixing and processing

Animal Feed

- Lowers formulation costs
- Drives batch-to-batch consistency
- Offers production efficiencies with easy mixing and processing
