

WA Wheat variety codes western region 2026/2027

There are varietal restrictions in the grading of wheat determined by Grains Australia. The highest grade possible is listed against each variety.
Due to the number of wheat varieties, not all varieties that meet feed grades are listed. If the variety can not be found in SIMS and is not listed contact the Bunge Laboratory (SA).

Variety	Variety code	Grade	Variety	Variety code	Grade	Variety	Variety code	Grade	Variety	Variety code	Grade
