

Illinois Consumer Coverage Disclosure Act

Per the Consumer Coverage Disclosure Act, the State of Illinois, requires that employers provide employees that reside in Illinois access to a list of Essential Health Benefits and details on which of those benefits are and are not covered by the group health plan.

You can view the list of Essential Health Benefits, identified by the State of Illinois, on the Bunge portal to confirm which benefits are also covered under the Bunge plans. From the portal home page navigate via the following selections:

- “Everything Bunge”
- “Human Resources” under the North America Departments and Functions section
- “Resources” from the menu on the left side of the screen
- “Consumer Coverage Disclosure Act” under the Benefits-US section

If you have any questions, please reach out to your local HR Representative or benefits.us@bunge.com.
